All vehicles must be MOT'd, taxed and insured for the public road.

## 10. Bath Motor Club is committed to protecting the environment and reducing the impacts on the environment from the events we organise. We operate our Environmental Management System to achieve this.

We carbon offset aspects of the events by planting trees and creating new local forestry.

We were the first UK Motor Club to be awarded the Motorsport UK Sustainability Accreditation and Motorsport UK Sustainable Club of the Year in 2023.

We ask for your support in this initiative by following some simple examples to help contribute to our environmental impact during this event:

- Do not leave anything at the venues or en-route, take it home to recycle or dispose of correctly
- If your vehicle does start to experience problems which could affect the environment, this includes leaks from your vehicle, please contact a member of the organising team.

We will also aim to do as much electronically as possible including the below:

- Online entry and payment only.
- Electronic Signing-on in advance.
- Electronic timing.

11. Competitors will be required to print their own competition numbers. Numbers will be sent out with the finals and must be printed on A4 paper. One number must be clearly visible on each side of the vehicle. Competitors will be **REQUIRED** to use the numbers which are sent out in the finals which contain the Bath Motor Club logo. This is to ensure that the marshals can read the numbers as previously it has been difficult to read them due to them being too small or hand written. The only exception to this is for the MX5 challenge competitors who will use their assigned printed numbers for their competition.

The numbers must be displayed on each side of the car in the most prominent position, preferable on the front doors under the window. These will have to be taped into position to prevent them from coming off during the event.

Any other numbers which are visible on the car must be taken off or crossed through so that it is obvious that this is not the number you are running.

19. Timing will be via an electronic system to the previous tenth of a second. Competitors are free to start in their own time after the all-clear signal has been received from the timekeeper. This signal will be demonstrated during the first run of the day. Timing will start as the front wheels cross the timing start line, and stop when the front wheels cross the finish line. Competitors are then required to cease all forwards motion within the box after the finish line.

Should the timing system not work then the organisers will use the manual timing system or stopwatches with the same process as above.

20. Marking and penalties will be as follows (declared by judges of fact):

Time taken completing the course:	Actual time taken (ASR 19)
Touching a cone, barrier, any other course marker or boundary marker:	5 seconds per offence.
Not stopping in the box after the finish line:	1 <sup>st</sup> Offence – Warning 2 <sup>nd</sup> Offence – 5 seconds 3 <sup>rd</sup> Offence - 5 seconds
Taking an incorrect route on any course. (however, returning to the point of departure from the correct route and then completing the route correctly will not be penalised, except as immediately below.)	Maximum Time
Completing a course in a time exceeding the Maximum:	Maximum Time
Not stopping immediately on deployment of the STOP signal:	Maximum Time(1 <sup>st</sup> time) Exclusion (2 <sup>nd</sup> time)

The Maximum Time is the fastest time in class for that course, plus 30 seconds.

21. The course will be depicted by numbered cones of 75cm height (NCR Ch19 App.1 2.7). Course designs will be in the competitor's pack which will be issued within the Final Instructions. It will be the competitor's responsibility to print these and bring them with them. No spares will be available on the day.

22. The event will contain 4 courses. The better two runs of three attempts at each course will count for results.

If the event runs late, then the organisers reserve the right to shorten the event either by:

- Cancelling the 4<sup>th</sup> course.
- To re-run the penultimate course in full without allowing a 2<sup>nd</sup> walk of the course.

In the event of a tie, the fastest run on the first course will determine the tie, then the second fastest run on the first course, then the fastest run on the second course etc until the tie is resolved.

To be classed as a finisher, a competitor must start at least two runs at all courses bar one: i.e. if there are 4 courses, a finisher must attempt at least 2 runs of each of the first 3.

23. Provisional results will be published as soon as possible following the end of the event, and declared final after 30 minutes (NCR Ch3 App.10 3.1(z)). It is anticipated that the results will be available during the course of the day via a dedicated website. The address will be included within the Final Instructions.

24. Any protest must be lodged in accordance with NCR Ch2.

25. The STOP signal may be displayed because of an obstruction on the course, whether this is an object or person. **A competitor must stop immediately at the marshal point on deployment of the STOP signal**, and a re-run will be allowed. A competitor will wait at the marshal location until given instruction from the marshal. The STOP signal will be by deployment of a red flag from each marshalling location indicated on the course layouts.

26. All other National Competition rules of the Motorsport UK apply as written, except:
- a) All competitors are advised to walk each course before the timed runs start for that course.
  - b) No practicing will be allowed anywhere on site.
27. During the course of the event there will be other activities taking place at Kemble Airfield, therefore please park as instructed in the Final Instructions and consider the other activities during the time at the venue. Please stick to the 10mph speed limit within the venue. We would like to use the venue again.
28. To ensure the safety of competitors it is a requirement of each competitor to ensure that there are no loose items within the car, i.e. spares / phones, and that seat belts and mechanical components (i.e. brakes) are in a GOOD working order and suitable to be put under the strain of competing in the AutoSOLO. This will be down to each competitor to ensure compliance; however, officials reserve the right to conduct safety checks at any point throughout the day.
29. Double drives are accepted, please put entries in for both drivers specifying who will be the first driver and who the other driver is so that people can be put into the right groups to run on the day.
30. There will be physical scrutineering on the day which will be open from when the venue opens in the morning. All vehicles must be presented at scrutineering to be eligible to start the event. Scrutineering will be held near the start line.
31. As part of the AutoSOLO we will be requiring competitors to marshal the course throughout the day. There will be an activity schedule sent out with the finals stating when you will be marshalling, driving, or resting. All competitors **MUST** bring their own reflective tabard to wear while marshalling. When it is the competitors turn to marshal, they will go to the official's gazebo to be allocated a marshal location. Other persons present with competitors are welcome to marshal alongside however they must also sign on, either online prior to the event or see an official on the day of the event to sign on.

Failure to marshal on each course may result in the competitor not counting towards the final classifications. The only exception is for the competitors who sit next to juniors, who will not be required to marshal.

32. **Facilities**

- Toilets will be available
  - Professional catering will be available on site
  - It is a condition of our licence that no fires/barbecues are allowed at the venue
  - No dogs are allowed on site during the event
  - Please take your rubbish home.
33. Passengers will be allowed in a competing vehicle providing that all the relevant NCR's are adhered to. The relevant NCR's are Ch19 App.7 1.1 (licences and club membership) and Ch19 App.6 section 3. Please ensure that you read the NCR's if you intend to take a passenger and ensure they are signed on.

34. Due to security restrictions at the venue, it is now mandatory that there is to be **NO RECORDING OR PHOTOGRAPHY** of any sorts. This includes but is not limited to, pictures, video, in car recording, go pro's. This requirement is for the whole of the venue. If anybody is found to be recording or taking pictures then they will be asked to leave the venue. The entrant who is linked to the person identified breaching this regulation is likely to be excluded from the event and asked to leave site. This is a new rule from the venue and we would like to keep using the venue for the forthcoming years, so please adhere to this as it is out of our control.

On behalf of Bath Motor Club, we hope you enjoy your day's Motor Sport
